

Πρόσκληση

JRA-1.1: Ανάπτυξη έξυπνων ολοκληρωμένων λύσεων

Τετάρτη
25 Νοεμβρίου 2020

Διαδικτυακή Συνεδρία

Το Τμήμα Ηλεκτρολόγων Μηχανικών, Μηχανικών Υπολογιστών και Πληροφορικής του Τεχνολογικού Πανεπιστημίου Κύπρου και η κοινοπραξία του χρηματοδοτούμενου από την ΕΕ έργου DESTINI (HORIZON-2020) σας προσκαλούν να παρακολουθήσετε το δεύτερο σεμινάριο της σειράς εκπαιδευτικών δραστηριοτήτων του έργου σχετικά με Αρχιτεκτονικές για Έξυπνα Εργοστάσια.

Invitation

JRA-1.1: Developing Smart Integrative Solutions

Wednesday
25 November 2020

Online Sessions

The Department of Electrical Engineering, Computer Engineering and Informatics of the Cyprus University of Technology, and the consortium of the EU funded project DESTINI (HORIZON-2020) cordially invite you to attend the second seminar of the training activities of the project on Architectures for Smart Factories.

Program

**Wednesday,
November 25**

10:00 – 10:30 – Hands-on SmartPM Adaptation
(Massimo Mecella)

10:30 – 10:45 – Hands-on Visual Process Maps
(Francesco Leotta)

10:45 – 11:30 – An Architecture for Smart Factories
(Massimo Mecella)

11:30 – 12:15 – Digital Twin Support Technologies
(David Ghedalia)

12:15 – 12:45 – AI to support Adaptivity
(Francesco Leotta)

12:45 – 13:00 – Question & Answers
(All)

Short Bio

Massimo Mecella

Massimo Mecella is an associate professor at Sapienza Università di Roma. His research interests focus on business process management, cyberphysical systems and the Internet of Things, advanced interfaces and human-computer interaction, and software architectures and service-oriented computing, with applications in multiple fields, including digital government, smart spaces, Industry 4.0, health care, disaster/crisis response and management, cybersecurity, and digital humanities.

Francesco Leotta

Francesco Leotta is an assistant professor in the Department of Computer, Control, and Management Engineering, Sapienza Università di Roma, Italy. His research interests concern algorithmic, methodological, experimental, and practical aspects in different areas of computer science, including ubiquitous computing, human-computer interaction, and digital humanities. Such topics are challenged in the application domains of smart spaces, smart manufacturing, and cultural heritage.

David Ghedalia

David Ghedalia is a research fellow at Università degli Studi di Modena e Reggio Emilia. His research interests include architectures for digital twins and their integration with artificial intelligence techniques, including planning and data integration, in the context of smart manufacturing
